Model:

TCGG-36-HC-LD

Display Case:

Curved Glass Refrigerated Deli Case with Hydrocarbon Refrigerant and LED Lighting

TCGG-36-HC-LD

▸ True's curved glass deli case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.

▸ High humidity gravity coil refrigeration system maintains 38°F to 40°F (3.3°C to 4.4°C) for the freshest display of meats, cheeses and deli products.

▸ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).

▸ Cabinet is NSF/ANSI Standard 7 certified to hold open food product.

▸ Insulated double panel curved front glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

▸ Two (2) adjustable, lighted, cantilevered PVC coated shelves.

▸ LED lights are low UV emitting to enhance product appearance and increase shelf life.

▸ Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.

▸ Interior - White aluminum sides and top with stainless steel floor.

STANDARD FEATURES

DESIGN

- True's curved glass deli display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.
- Gravity coil refrigeration system guarantees the freshest display of meats, cheeses and deli products.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser maintains 38°F to 40°F (3.3°C to 4.4°C).
- High humidity gravity coil refrigeration system. Ideally suited for deli meats, cheeses and salads.
- Condensing unit located behind panel in back of unit. Entire system slides out for easy cleaning and maintenance.
- Automatic defrost system; time-initiated, time-terminated.

CABINET CONSTRUCTION

- Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.
- Interior - White aluminum sides and top with stainless steel floor.

- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS

- Insulated double panel glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

REAR DOORS

- "Low-E", double pane thermal glass inserts with mitered plastic channel frames.
- Each door fitted with 12" (305 mm) long black aluminum handle.
- Self-closing doors. Sliding doors ride on stainless steel V-Channel with stainless steel bearings for smooth, even, positive closure. Doors fit within plastic channel frame.

SHELVING

- Two (2) adjustable, lighted, cantilevered white heavy duty PVC coated wire shelves 30⅜" L x 22½" D (772 mm x 572 mm). Shelving system is cantilevered with adjustable angle to maximize presentation.

LIGHTING

- Cabinet equipped with three LED (3) light sources for maximum product display; two (2) shelf mounted and one (1) cabinet mounted.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Four (4) amp exterior scale receptacle.
- NSF/ANSI Standard 7 compliant for open food product.

ELECTRICAL

- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

RECOMMENDED OPERATING CONDITIONS

- TCGG refrigerated models are designed to operate in an environment where temperature and humidity do not exceed 75°F (24°C) and 55% relative humidity.

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.
- ❏ 6" (153 mm) standard legs.
- ❏ 6" (153 mm) seismic/flanged legs.
- ❏ 2½" (64 mm) diameter castors.
- ❏ 4" (102 mm) diameter castors.
- ❏ Ratchet locks.
- ❏ Additional lighted shelf (maximum of 3 shelves per cabinet).
- ❏ Non-lighted shelves.

True Display Merchandiser:
Curved Glass, Glass End Dry Case

true ®

STANDARD FEATURES

DESIGN
- True's "dry" display case combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.
- Designed to provide an attractive companion to our TDM-R "refrigerated" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and 0.02 global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front and side panels are single pane tempered glass. Front glass opens from closed to fully open to provide extra large viewing area to maximize product presentation while allowing full frontal access.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Three (3) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds two (2) 18"L x 26"D (458 mm x 661 mm) display pans, two (2) 9"L x 26"D (229 mm x 661 mm) display pans and four (4) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Front glass swings Up for easy cleaning access.
- NSF/ANSI Standard 2 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

OPTIONAL FEATURES/ACCESSORIES
Upcharge and lead times may apply.
- ❏ 230 - 240V / 50 Hz.
- ❏ White exterior
- ❏ Stainless steel exterior
- ❏ Custom exterior colors (contact factory for details)
- ❏ Black interior
- ❏ Stainless steel interior
- ❏ Black wire shelves
- ❏ Chrome plated wire shelves
- ❏ Stainless mezzanine shelves

STANDARD FEATURES

DESIGN
- True's refrigerated display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Designed to provide an attractive companion to our TDM-DC "dry case" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.

- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

TGM-R-36-SC/SC-W-W

TGM-R-36-SC/SC-S-W

TGM-R-36-SC/SC-S-S

FEATURES

▸ True's refrigerated glass merchandisers combine efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.

▸ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).

▸ High capacity, factory balanced refrigeration system. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products.

▸ Cabinet is NSF/ANSI Standard 7 compliant to hold open food product.

▸ Two (2) rear sliding glass doors for back access.

▸ Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.

▸ Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

▸ Three (3) tiered levels of adjustable wire cantilever shelves that match cabinet interior color. Chrome plated wire shelves standard on stainless units.

▸ Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

▸ LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

True Glass Merchandiser:
Curved Glass, Solid Colored End Refrigerator

true ®

STANDARD FEATURES

DESIGN
- True's refrigerated display case glass merchandiser combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Designed to provide an attractive companion to our TGM-DC "dry case" display merchandiser. Please note: If units are banked together, because of side panel, a $1/2$" (13mm) gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Six (6) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds two (2) 18"L x 26"D (458 mm x 661 mm) display pans, two (2) 9"L x 26"D (229 mm x 661 mm) display pans and four (4) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Pull out condensing unit slides out for easy cleaning and maintenance.
- Electronic temperature control.
- NSF/ANSI Standard 7 compliant for open food product. Tested and certified for performance at NSF Type II: 80°F (27°C) and 55% relative humidity.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

Display Case:
Curved Glass Refrigerated Deli Case with Hydrocarbon Refrigerant and LED Lighting

TCGG-48-HC-LD

▶ True's curved glass deli case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.

▶ High humidity gravity coil refrigeration system maintains 38°F to 40°F (3.3°C to 4.4°C) for the freshest display of meats, cheeses and deli products.

▶ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).

▶ Cabinet is NSF/ANSI Standard 7 certified to hold open food product.

▶ Insulated double pane curved front glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

▶ Two (2) adjustable, lighted, cantilevered PVC coated shelves.

▶ LED lights are low UV emitting to enhance product appearance and increase shelf life.

▶ Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.

▶ White aluminum interior sides and top. Stainless steel floor with coved corners.

STANDARD FEATURES

DESIGN
- True's curved glass deli display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.
- Gravity coil refrigeration system guarantees the freshest display of meats, cheeses and deli products.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser maintains 38°F to 40°F (3.3°C to 4.4°C).
- High humidity gravity coil refrigeration system. Ideally suited for deli meats, cheeses and salads.
- Condensing unit located behind panel in back of unit. Entire system slides out for easy cleaning and maintenance.
- Automatic defrost system; time-initiated, time-terminated.

CABINET CONSTRUCTION
- Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.
- Interior - White aluminum sides and top with stainless steel floor.

- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Insulated double pane glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

REAR DOORS
- "Low-E", double pane thermal glass inserts with mitered plastic channel frames.
- Each door fitted with 12" (305 mm) long molded plastic handle.
- Self-closing doors, efficient counter balanced weight system for smooth, even, positive closure. Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Two (2) adjustable, lighted, white heavy duty PVC coated wire shelves 42⅞" L x 22^{5}⁄₃₂" D (1090 mm x 563 mm). Shelving system is cantilevered with adjustable angle to maximize presentation.

LIGHTING
- Cabinet equipped with three LED (3) light sources for maximum product display; two (2) shelf mounted and one (1) cabinet mounted.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Four (4) amp exterior scale receptacle.
- NSF/ANSI Standard 7 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1

True Display Merchandiser:
Curved Glass, Glass End Dry Case

STANDARD FEATURES

DESIGN
- True's "dry" display case combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.
- Designed to provide an attractive companion to our TDM-R "refrigerated" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and 0.02 global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front and side panels are single pane tempered glass. Front glass opens from closed to fully open to provide extra large viewing area to maximize product presentation while allowing full frontal access.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Three (3) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds four (4) 18"L x 26"D (458 mm x 661 mm) display pans, two (2) 9"L x 26"D (229 mm x 661 mm) display pans and six (8) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Front glass swings Up for easy cleaning access.
- NSF/ANSI Standard 2 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

STANDARD FEATURES

DESIGN
- True's combination "refrigerated" and "dry" display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options in refrigerated section. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.

- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front and side panels are single pane tempered glass. Front glass opens from closed to fully open to provide extra large viewing area to maximize product presentation while allowing full frontal access.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Six (6) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds four (4) 18"L x 26"D (458 mm x 661 mm) display pans and four (4) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Refrigerator evaporator is epoxy coated to eliminate the potential of corrosion.
- Front glass swings Up for easy cleaning access.
- Pull out condensing unit slides out for easy cleaning and maintenance.
- Electronic temperature control.
- NSF/ANSI Standard 7 compliant for open food product. Tested and certified for performance at NSF Type II: 80°F (27°C) and 55% relative humidity.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.
115/60/1
NEMA-5-15R

OPTIONAL FEATURES/ACCESSORIES

- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.

- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Six (6) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds four (4) 18"L x 26"D (458 mm x 661 mm) display pans, two (2) 9"L x 26"D (229 mm x 661 mm) display pans and six (8) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Pull out condensing unit slides out for easy cleaning and maintenance.
- Electronic temperature control.
- NSF/ANSI Standard 7 compliant for open food product. Tested and certified for performance at NSF Type II: 80°F (27°C) and 55% relative humidity.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.
115/60/1
NEMA-5-15R

True Display Merchandiser:
Curved Glass, Glass End Dry Case

STANDARD FEATURES

DESIGN
- True's "dry" display case combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.
- Designed to provide an attractive companion to our TDM-R "refrigerated" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and 0.02 global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front and side panels are single pane tempered glass. Front glass opens from closed to fully open to provide extra large viewing area to maximize product presentation while allowing full frontal access.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Three (3) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds six (6) 18"L x 26"D (458 mm x 661 mm) display pans and eight (8) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Front glass swings Up for easy cleaning access.

STANDARD FEATURES

DESIGN
- True's combination "refrigerated" and "dry" display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options in refrigerated section. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.

- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

True Glass Merchandiser — Curved Glass, Solid Colored End Dual Zone

FEATURES

▶ True's dual zone glass merchandisers combine efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.

▶ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).

▶ Refrigerated section features high capacity, factory balanced refrigeration system. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products.

▶ Two (2) rear sliding glass doors for back access.

▶ Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.

▶ Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

▶ Three (3) tiered levels of adjustable wire cantilever shelves that match cabinet interior color. Chrome plated wire shelves standard on stainless units.

▶ Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

▶ LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

STANDARD FEATURES

DESIGN
- True's combination "refrigerated" and "dry" display case glass merchandiser combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end end deli, desserts and pastries.
- Please note: If units are banked together, because of side panel, a $1/2$" (13mm) gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Six (6) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds six (6) 18"L x 26"D (458 mm x 661 mm) display pans and eight (8) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Pull out condensing unit slides out for easy cleaning and maintenance.
- Electronic temperature control.
- NSF/ANSI Standard 7 compliant for open food product. Tested and certified for performance at NSF Type II: 80°F (27°C) and 55% relative humidity.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

STANDARD FEATURES

DESIGN
- True's curved glass deli display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.
- Gravity coil refrigeration system guarantees the freshest display of meats, cheeses and deli products.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser maintains 38°F to 40°F (3.3°C to 4.4°C).
- High humidity gravity coil refrigeration system. Ideally suited for deli meats, cheeses and salads.
- Condensing unit located behind panel in back of unit. Entire system slides out for easy cleaning and maintenance.
- Automatic defrost system; time-initiated, time-terminated.

CABINET CONSTRUCTION
- Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.
- Interior - White aluminum sides and top with stainless steel floor.

- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Insulated double pane glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

REAR DOORS
- "Low-E", double pane thermal glass inserts with mitered plastic channel frames.
- Each door fitted with 12" (305 mm) long molded plastic handle.
- Self-closing doors, efficient counter balanced weight system for smooth, even, positive closure. Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Four (4) adjustable, lighted, white heavy duty PVC coated wire shelves 22½" L x 27⅞" D (572 mm x 709 mm). Shelving system is cantilevered with adjustable angle to maximize presentation.

LIGHTING
- Cabinet equipped with five LED (5) light sources for maximum product display; four (4) shelf mounted and one (1) cabinet mounted.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Four (4) amp exterior scale receptacle.
- NSF/ANSI Standard 7 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

- Exterior - durable and permanent no peel or chip white powder coated cold rolled steel with stainless steel top and trim.
- Interior - White aluminum sides and top with stainless steel floor.

- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS

- Insulated double pane glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

REAR DOORS

- "Low-E", double pane thermal glass inserts with mitered plastic channel frames.
- Each door fitted with 12" (305 mm) long molded plastic handle.
- Self-closing doors, efficient counter balanced weight system for smooth, even, positive closure. Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING

- Two (2) adjustable, lighted, white heavy duty PVC coated wire shelves 66⁷⁄₈" L x 22⁵⁄₃₂" D (1699 mm x 563 mm). Shelving system is cantilevered with adjustable angle to maximize presentation.

LIGHTING

- Cabinet equipped with three LED (3) light sources for maximum product display; two (2) shelf mounted and one (1) cabinet mounted.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Four (4) amp exterior scale receptacle.
- NSF/ANSI Standard 7 compliant for open food product.

ELECTRICAL

- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

## RECOMMENDED OPERATING CONDITIONS

- TCGG refrigerated models are designed to operate in an environment where temperature and humidity do not exceed 75°F (24°C) and 55% relative humidity.

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.
- ❏ 6" (153 mm) standard legs.
- ❏ 6" (153 mm) seismic/flanged legs.
- ❏ 2½" (64 mm) diameter castors.
- ❏ 4" (102 mm) diameter castors.
- ❏ Ratchet locks.
- ❏ Additional lighted shelves.
- ❏ Non-lighted shelves.

TCGG-72-S-HC-LD	**Stainless Steel Curved Glass Refrigerated Deli Case Hydrocarbon Refrigerant and LED Lighting**

TCGG-72-S-HC-LD

▸ True's curved glass deli case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.

▸ High humidity gravity coil refrigeration system maintains 38°F to 40°F (3.3°C to 4.4°C) for the freshest display of meats, cheeses and deli products.

▸ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).

▸ Cabinet is NSF/ANSI Standard 7 certified to hold open food product.

▸ Insulated double pane curved front glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

▸ Two (2) adjustable, lighted, cantilevered PVC coated shelves.

▸ LED lights are low UV emitting to enhance product appearance and increase shelf life.

▸ All stainless steel interior and exterior.

† Depth does not include ⅞" (23 mm) for door handles.

STANDARD FEATURES

DESIGN

- True's curved glass deli display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of deli products.
- Gravity coil refrigeration system guarantees the freshest display of meats, cheeses and deli products.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser maintains 38°F to 40°F (3.3°C to 4.4°C).
- High humidity gravity coil refrigeration system. Ideally suited for deli meats, cheeses and salads.
- Condensing unit located behind panel in back of unit. Entire system slides out for easy cleaning and maintenance.
- Automatic defrost system; time-initiated, time-terminated.

CABINET CONSTRUCTION

- Exterior - all stainless steel front, sides, back and top.
- Interior - all stainless steel sides and stainless steel floor with coved corners.

- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS

- Insulated double pane glass provides maximum insulation value for greater efficiency and energy savings. Both panes are tempered for safety.

REAR DOORS

- "Low-E", double pane thermal glass inserts with mitered plastic channel frames.
- Each door fitted with 12" (305 mm) long molded plastic handle.
- Self-closing doors, efficient counter balanced weight system for smooth, even, positive closure. Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING

- Two (2) adjustable, lighted, white heavy duty PVC coated wire shelves 66⅞" L x 22 5/32" D (1699 mm x 563 mm). Shelving system is cantilevered with adjustable angle to maximize presentation.

LIGHTING

- Cabinet equipped with three LED (3) light sources for maximum product display; two (2) shelf mounted and one (1) cabinet mounted.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Four (4) amp exterior scale receptacle.
- NSF/ANSI Standard 7 compliant for open food product.

TGM-DC-77-SC/SC-W-W

TGM-DC-77-SC/SC-S-W

TGM-DC-77-SC/SC-S-S

FEATURES

▸ True's "dry" glass merchandisers combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.

▸ Cabinet is NSF/ANSI Standard 2 compliant to hold open food product.

▸ Two (2) rear sliding glass doors for back access.

▸ Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.

▸ Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

▸ Three (3) tiered levels of adjustable wire cantilever shelves that match cabinet interior color. Chrome plated wire shelves standard on stainless units.

▸ Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

▸ LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

True Glass Merchandiser:
Curved Glass, Solid Colored End Refrigerator

STANDARD FEATURES

DESIGN
- True's dry display case glass merchandiser combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Designed to provide an attractive companion to our TGM-R "refrigerated" glass merchandiser. Please note: If units are banked together, because of side panel, a $1/2$" (13mm) gap will remain between units.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front is single pane tempered glass with extra large viewing area to maximize product presentation.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Six (6) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds eight (8) 18"L x 26"D (458 mm x 661 mm) display pans and twelve (12) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- NSF/ANSI Standard 2 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

True Glass Merchandiser:
Curved Glass, Solid Colored End Dual Zone

true ®

STANDARD FEATURES

DESIGN
- True's combination "refrigerated" and "dry" display case glass merchandiser combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end end deli, desserts and pastries.
- Please note: If units are banked together, because of side panel, a 1/2" (13mm) gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, solid wood sides with aluminum cover and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

True Display Merchandiser:
Curved Glass, Glass End Dry Case

true ®

STANDARD FEATURES

DESIGN
- True's "dry" display case combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.
- Designed to provide an attractive companion to our TDM-R "refrigerated" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.
- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
- Insulation - entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and 0.02 global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.

CURVED FRONT DISPLAY GLASS
- Curved glass front and side panels are single pane tempered glass. Front glass opens from closed to fully open to provide extra large viewing area to maximize product presentation while allowing full frontal access.

REAR DOORS
- Two (2) rear sliding glass doors for back access.
- Each door fitted with 12" (305 mm) long aluminum handle.
- Sliding doors ride on stainless steel V-channel with stainless steel bearings. Doors fit within plastic channel frame.

SHELVING
- Three (3) adjustable heavy duty PVC coated wire shelves standard.
- Each shelf supports a maximum weight of 150 lbs. (69 kg).

PAN CAPACITY
- Cabinet holds eight (8) 18"L x 26"D (458 mm x 661 mm) display pans and twelve (12) 12"L x 18"D (305 mm x 458 mm) display pans. Pans supplied by others.

LIGHTING
- LED interior lighting, two (2) clips underneath shelf to keep wires in place. Safety shielded.

MODEL FEATURES
- Front glass swings Up for easy cleaning access.
- NSF/ANSI Standard 2 compliant for open food product.

ELECTRICAL
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.
115/60/1
NEMA-5-15R

OPTIONAL FEATURES/ACCESSORIES
Upcharge and lead times may apply.
- ❏ 230 - 240V / 50 Hz.
- ❏ White exterior
- ❏ Stainless steel exterior
- ❏ Custom exterior colors (contact factory for details)
- ❏ Black interior
- ❏ Stainless steel interior
- ❏ Black wire shelves
- ❏ Chrome plated wire shelves
- ❏ Stainless mezzanine shelves

FEATURES

▸ True's refrigerated display merchandisers combine efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end desserts and pastries.

▸ Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).

▸ High capacity, factory balanced refrigeration system. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products.

▸ Cabinet is NSF/ANSI Standard 7 compliant to hold open food product.

▸ Two (2) rear sliding glass doors for back access.

▸ Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless. Curved glass front and side glass panels.

▸ Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.

▸ Three (3) tiered levels of adjustable wire cantilever shelves that match cabinet interior color. Chrome plated wire shelves standard on stainless units.

▸ Front glass swings Up for easy cleaning access.

▸ LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

Curved Glass, Glass End Refrigerator

true®

STANDARD FEATURES

DESIGN
- True's refrigerated display case combines efficient, high volume merchandising and exceptional refrigeration with an elegant curved glass front for sophisticated presentation of high end deli, desserts and pastries.
- Designed to provide an attractive companion to our TDM-DC "dry case" display merchandiser. Please note: If units are banked together, because of side panel, a 1/2" gap will remain between units.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- True's self-cleaning RCU technology eliminates the need to clean the condenser coil, reduces energy consumption and helps maintain the coldest temperatures and freshest product.
- High capacity, factory balanced refrigeration system that has two (2) temperature range options. Standard temperature range maintains cabinet temperatures of 33°F to 41°F (.5°C to 5°C), ideally suited for refrigerated bakery and cold deli products. Optional temperature range maintains cabinet temperatures of 42°F to 65°F (5.5°C to 18.3°C), ideally suited for chocolate & wine options.
- Pull Out Condensing unit slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION
- Exterior - powder coated FDA black rounded front and back, black aluminum aesthetic side and front panels. Color options available (upcharge may apply) - white or stainless.
- Curved glass front and side glass panels.

- Interior - powder coated FDA white over CRS material. Color options available (upcharge may apply) - black or stainless.
